- Natural rubber latex or “latex-free” neoprene (polychloroprene)
- High volume manufacturing and packaging facilities
- ISO 9001:2000 Quality System
- Product development service
- Custom-made products using exclusive moulds

Medical Products Overview

Experience

With over 40 years of experience in the manufacture of specialist medical products for the healthcare industry, Precision Dippings Marketing Ltd has a worldwide reputation for quality and service.

Manufacturing

Products are produced to a medical standard in natural rubber latex or latex-free neoprene (polychloroprene). Our client base includes medical device manufacturers for the healthcare industry, veterinary and dental. Our highly skilled and experienced team provide a high quality manufacturing, assembly and packaging service. We are committed to working in partnership with our customers to produce high quality, innovative products. Our production process control is in accordance with the ISO 9000:2001 Quality System. Our sophisticated robotic plant is capable of manufacturing volumes of up to 20,000 units per week.

Quality Control

As required by the ISO 9001:2000 Quality System, our procedures are documented and audited. Products are subject to in-process and final inspection. Certificates of Conformity are provided.

Customer Service

Customer service is our great strength. Rapid response times and customer care are our priority.

Product Development

Technical experts are available to work with designers throughout the product development process. From drawing, to prototype, to production, we will work in partnership with our customers. We offer cost effective, rapid solutions for innovative projects.

Anaesthesia Re-Breathing Bags

Re-breathing bags can be manufactured in a range of sizes including:

0.5 litre, 1 litre, 2 litre and 3 litre.

Latex-free or natural rubber latex bags can be chosen.

The company has many years of experience in the manufacture, assembly and packaging of re-breathing bags.

Volumes of over 10,000 units per week can be produced.

Miscellaneous Medical Products

A huge range of specialist components is manufactured for medical customers.

These products include:

Probe covers, urinary rubbers, urinal bags, diagnostic finger stalls, sphygmomanometer rubbers, bulbs, bladders, balloons, tourniquet straps and medical sheaths.

These products are generally custom-made for the customer. Exclusive moulds are retained and used for on-going orders.

Waterproof Plaster Cast covers

Latex covers can be used for bathing or showering. The latex covers are suitable for use with plaster casts, bandages and prosthetic limbs.

The plaster cast covers are made from soft, flexible latex which is both comfortable to wear and re-useable.

For further information about our plaster cast covers please visit ProtectaCast.com where you can view and purchase our product selection online.

Dental

Various products are manufactured for the dental industry including tooth protectors and dental dams.
